Marton Moss
Blackpool
FY4 5EG

Applicant:

Mr Philip Holt
Trapp Farm
176 Fleetwood Road South
Thornton Cleveleys
Lancashire
FY5 5NR

Application Number: 19/00001/FUL

Proposal: Erection of a replacement dwelling (following demolition of existing farmhouse)

Location: Trapp Farm 176 Fleetwood Road South Thornton Cleveleys Lancashire FY5 5NR

Wyre Borough Council (the Local Planning Authority) gives notice of its decision to grant planning permission for the above proposal, subject to conditions stated below:

1. The development must be begun before the expiration of three years beginning with the date of this permission.

Reason: This condition is required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development shall be carried out, except where modified by the conditions to this permission, in accordance with the Planning Application received by the Local Planning Authority on 3 January 2019 including the following plans/documents:

- Flood plan, site plan and block plan (DWG No. Trap/003)
- site plan (Trap/07)
- proposed floor plans, elevations and isometric views (DWG No. Trap/003)

The development shall be retained hereafter in accordance with this detail.

Reason: For the avoidance of doubt and so that the Local Planning Authority shall be satisfied as to the details.

3. The development shall be carried out strictly using those materials specified on the approved plan(s) unless other minor variations are submitted to and approved in writing by the Local Planning Authority after the date of this permission and before implementation.

Reason: To safeguard the visual amenities of the locality and in accordance with Policy CDMP3 of the Wyre Local Plan (2011-31).

4. Prior to the commencement of development hereby permitted, a plan indicating the positions, design, materials and type of boundary treatment to be erected, shall be submitted to and approved in writing by the Local Planning Authority. The approved boundary treatment shall be completed before the dwelling(s) is first occupied. The approved details shall thereafter be maintained and retained.

Reason: In the interests of the appearance of the locality in accordance with policy CDMP3 of the Wyre Local Plan (2011-31). The details are required prior to the commencement of the development because they were not submitted with the application.

5. Prior to the commencement of development, a drainage scheme, which shall detail measures for the attenuation and the disposal of foul and surface waters, together with details of existing and proposed ground and finished floor levels to achieve the drainage scheme and any flood risk mitigation deemed necessary, shall be submitted to and approved in writing by the Local Planning Authority. The surface water drainage scheme shall be in accordance with the hierarchy of drainage options outlined in Policy CDMP2 of the Adopted Local Plan 2011-31 or any equivalent policy in an adopted Local Plan that replicates the existing Local Plan, with evidence of an assessment of the site conditions to include site investigation and test results to confirm infiltrations rates to be submitted. For the avoidance of doubt, surface water must drain separate from the foul and unless otherwise agreed in writing by the Local Planning Authority, no surface water shall discharge to the public sewerage system either directly or indirectly.

No part of the development shall be occupied or brought into first use until the drainage works and levels have been completed in accordance with the approved scheme. Thereafter the agreed scheme shall be retained, managed and maintained in accordance with the approved details.

Reason: To promote sustainable development using appropriate drainage systems, ensure a safe form of development that poses no unacceptable risk of pollution to water resources or human health, to prevent an undue increase in surface water run-off to reduce the risk of flooding and in the interests of visual and residential amenity in accordance with policies CDMP2 and CDMP3 of the Wyre Local Plan (2011-31) and the National Planning Policy Framework. The condition is required to be approved prior to commencement of development to ensure that full details are provided, that have not been forthcoming with the application, to ensure a suitable form of drainage is provided in that specific area taking into consideration land conditions and proximity to existing services and to ensure that any proposed raising of levels can be assessed and that a coherent approach is taken with regard to the design of drainage and housing layout.

6. No tree felling, tree works or works to hedgerows, or demolition of buildings shall take place during the optimum period for bird nesting (March to August inclusive) unless a report, undertaken by a suitably qualified person immediately prior to any clearance, has been submitted to and approved in writing by the Local Planning Authority, demonstrating that nesting / breeding birds have been shown to be absent.

Reason: To protect and prevent unnecessary disturbance of nesting birds in accordance with the provisions of the Wildlife and Countryside Act 1981 and section 15 of the National Planning Policy Framework .

7. The development hereby approved shall be implemented in full accordance with the Ecological Appraisals submitted with the planning application [letter dated 29 March 2018 and bat survey 18 March 2019] including all the mitigation measures set out in that report.

Reason: To ensure compliance with the Wildlife and Countryside Act 1981, Policy CDMP4 of the Wyre Local Plan (2011-31) and section 15 of the National Planning Policy Framework.

8. Prior to the commencement of development a desk study to investigate and produce an assessment of the risk of the potential for on-site contamination shall be undertaken and submitted to and approved in writing by the Local Planning Authority. If the desk study identifies potential contamination, a detailed site investigation shall be carried out in accordance with a written methodology, which shall first have been submitted to and approved in writing by the Local Planning Authority. If remediation measures are then considered necessary, a scheme for decontamination of the site shall be submitted to, and approved by, the Local Planning Authority in writing and the approved scheme implemented prior to the development of the site. Any changes to the approved scheme must be approved in writing by the Local Planning Authority prior to any works being undertaken.

Reason: The development is for a sensitive end use and insufficient information has been submitted with the application as to the potential contamination risks of the site. The potential for contamination must therefore be addressed in order to safeguard the development in accordance with Policy CDMP1 of the Wyre Local Plan (2011-31).

9. The development hereby permitted shall be carried out in accordance with the approved Flood Risk Assessment (FRA) [DWG Trap/003]. The mitigation measures shall be fully implemented prior to first occupation of the development or subsequently in accordance with the timing/phasing arrangements embodied within the scheme, or within any other period as may subsequently be approved in writing by the Local Planning Authority.

Reason: To reduce the risk of flooding to the proposed development and future occupants in accordance with Policy CDMP2 of the Wyre Local Plan (2011-31) and the National Planning Policy Framework.

10. The development hereby approved shall not be first occupied or brought into use until the parking/turning area(s) shown on the approved plan [Proposed ground floor Trap003] has been laid out, surfaced and drained. The parking / turning area(s) shall not thereafter be used for any purpose other than for the parking and manoeuvring of vehicles.

Reason: To ensure that adequate off road parking is provided to serve the development in the interests of highway safety and in accordance with the provisions of Policy CDMP6 of the Wyre Local Plan (2011-31).

11. No development shall take place until full details of both hard and soft landscaping works have been submitted to and approved in writing by the Local Planning Authority. These details shall include, areas of soft landscaping (including any retained trees, hedgerows and other planting and any replanted or transplanted hedgerows), hard surfaced areas and materials, planting plans specifications and schedules (including plant size, species and number/densities), existing landscaping to be retained, and shall show how account has been taken of any underground services.

The landscaping works shall be carried out in accordance with the approved details prior to first occupation or first use of any part of the development or otherwise in accordance with a programme agreed in writing by the Local Planning Authority and shall thereafter be retained and maintained.

Any trees or shrubs planted in accordance with this condition which are removed, uprooted, destroyed, die, or become severely damaged or seriously diseased within 5 years of planting, or any trees or shrubs planted as replacements shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted, unless the Local Planning Authority gives its written consent to any variation.

Reason: To ensure the site is satisfactorily landscaped in the interests of visual amenity and ecology in accordance with Policies CDMP3 and CDMP4 of the Wyre Local Plan (2011-31) and to ensure compliance with the Wildlife and Countryside Act 1981 and section 15 of the National Planning Policy Framework. The details are required to be approved prior to commencement of development to ensure landscaping is implemented at an appropriate time during the development.

12. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking or re-enacting that Order with or without modification), the dwelling(s) shall not be altered or extended, nor shall any building, structure or enclosure be erected within the curtilage of the dwelling(s) without planning permission.

Reason: To ensure that the Local Planning Authority have control over any future development of the dwelling(s) in the interests of preserving the character and amenity of the area in accordance with Policies SP3 and CDMP3 of the Wyre Local Plan (2011-31).

13. No development approved by this permission shall be commenced until details of the existing and proposed ground, slab and finished floor levels have been submitted to and approved in writing by the Local Planning Authority.

The ground, slab and finished floor levels shall be constructed and completed in accordance with the approved details.

Reason: To ensure that the development has a satisfactory visual impact on the streetscene in accordance with Policy CDMP3 of the Wyre Local Plan (2011-31). The condition is required to be approved prior to commencement of development to ensure that full details are provided, that have not been forthcoming with the application.

14. Prior to the first occupation of the replacement dwelling hereby approved the existing garage and store shall be entirely demolished, as shown within the application site (red edge) boundary on the approved site plan.

Reason: The retention of the existing buildings would result in inappropriate development in the Green Belt, contrary to policy SP3 of the Adopted Wyre Local Plan (2011-31) and the National Planning Policy Framework.

Attention is drawn to the following notes:

1. The site falls in Flood Zone 2. It is therefore recommended that flood proofing measures are considered by the applicant and incorporated into the development where appropriate. Further details are available on the GOV.UK website:-

- Improving the flood performance of new buildings: flood resilient construction (<https://www.gov.uk/government/publications/flood-resilient-construction-of-new-buildings>)

- Prepare your property for flooding (<https://www.gov.uk/government/publications/prepare-your-property-for-flooding>)

Further Preparing for Floods guidance is also available on the Planning Portal website at <http://www.planningportal.gov.uk/buildingregulations/goodpractice/preparingforfloods>

2. It is an offence to disturb, harm or kill any species specifically protected under the Wildlife and Countryside Act 1981. In the event of any such species being unexpectedly encountered before and during site clearance or development work, then work shall stop immediately until specialist advice has been sought from a suitably qualified Ecologist regarding the need for additional survey(s), a license from Natural England and/or the implementation of necessary mitigation measures.

This permission relates only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment or under the Building Regulations. Any other consent or approval which is necessary must be obtained from the appropriate authority.

The Local Planning Authority has had regard to the requirements of Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015 and has met the requirement of paragraph 38 of the National Planning Policy Framework to work proactively with applicants to secure developments that improve the economic, social and environmental conditions of the area by working with applicants to find solutions to any problems that have arisen in this planning application details of which are expanded upon in the officers report.

Signed:

David Thow
Head of Planning Services

Date: 19 February 2020

Please read the notes attached to this notice with great care. They will help you to understand this decision, your rights and other things you may have to do.
